Lineups & Formation — Hanley Town FC (Home)

Hanley Town FC — 4-4-2

Pitch shown vertically, team attacking upward. Numbers 105 / 107 / 114 are second-half replacements who wore duplicate squad numbers (5 / 7 / 14).

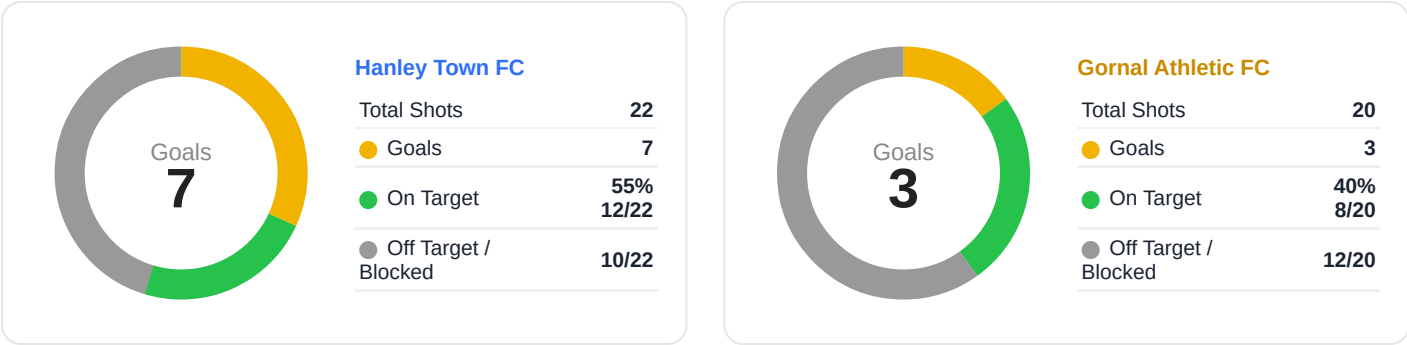

Lineups & Formation — Gornal Athletic FC (Away)

Gornal Athletic FC — 4-2-3-1

Pitch shown vertically, team attacking upward.

Attacking

Hanley Town FC

Gornal Athletic FC

Attacking

◆ Analyst Insight

Hanley Town FC converted at an elite rate — 7 goals from 22 shots (32% conversion) and 55% on-target accuracy. Gornal Athletic FC generated volume (20 shots) but a 5-block, 40% on-target profile shows efforts were rushed or smothered before testing the keeper. Chance quality, not quantity, decided the scoreline.

Distribution

■ Hanley Town FC ■ Gornal Athletic FC

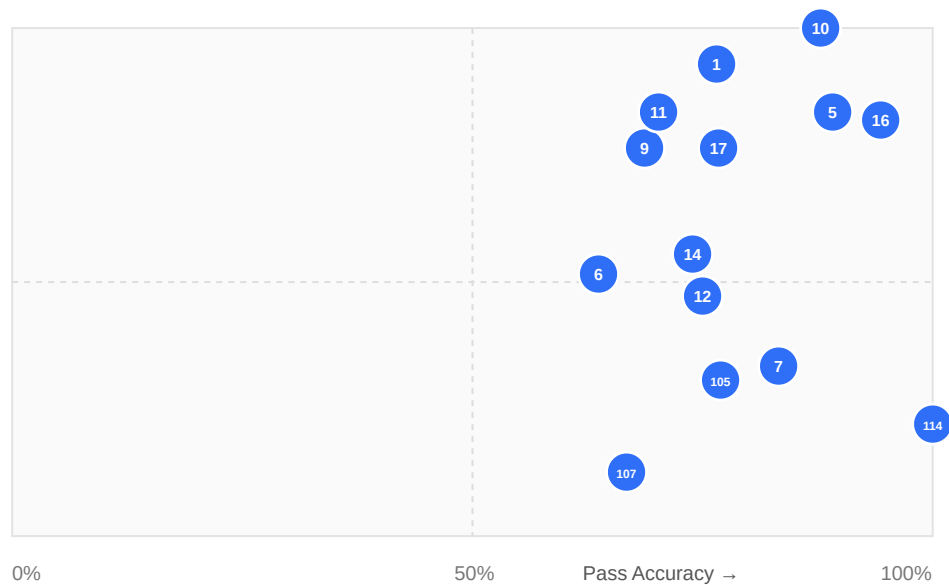

◆ Analyst Insight

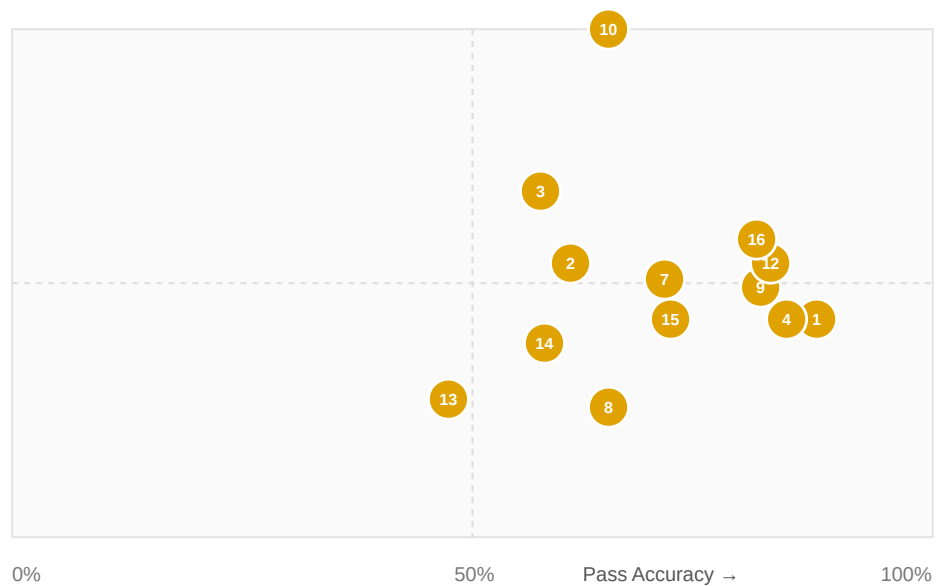

Hanley Town FC dominated the ball (56.5% possession) and built with far cleaner circulation — 79% pass accuracy vs 69%. The gap widens in wide play: 15 crosses to 12. Gornal Athletic FC's lower completion suggests they were forced into longer, more contested passes under pressure.

Distribution — Pass Network

Hanley Town FC · Passes by Volume & Accuracy

Gornal Athletic FC · Passes by Volume & Accuracy

◆ Analyst Insight

Top-right = high volume + high accuracy (reliable circulators). Hanley Town FC's build-up runs through its back line and deep midfield; isolated bottom-left dots are wide/sub players with low volume. Use this to spot over-reliance on single nodes and players who break up rhythm with low completion.

Σ recv	6	17	20	11	15	5	18	41	20	8	13	12	20	

◆ Analyst Insight

Gornal Athletic FC's network is sparser and more back-line concentrated, consistent with their lower possession and accuracy — fewer repeated forward combinations means less sustained attacking rhythm.

Defensive

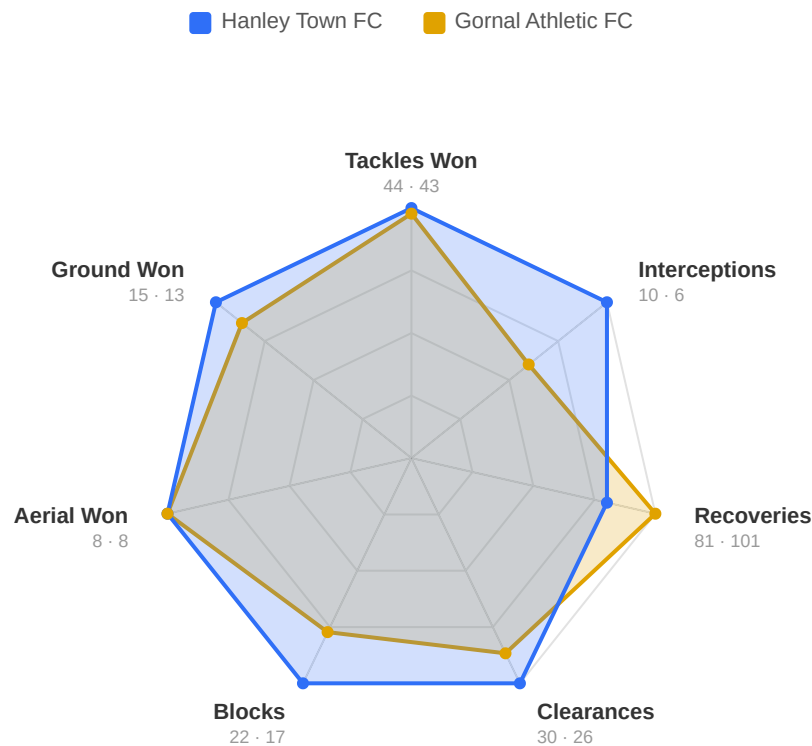

Hanley Town FC Gornal Athletic FC

◆ Analyst Insight

Gornal Athletic FC did more defensive work out of possession — 101 recoveries and 26 clearances vs 81 / 30 — a signature of the side chasing the game. Hanley Town FC won the aerial battle (8 vs 8 duels won) and was more efficient in the tackle (67% vs 63%), controlling key duels rather than defending deep.

Defensive — Profile Radar

Each axis is min-max normalized against the higher of the two teams (outer ring = match-high). Raw values shown beside each axis as Home · Away.

◆ Analyst Insight

The radar exposes each side's defensive identity. Gornal Athletic FC stretches the shape toward recoveries, clearances and blocks — a reactive, deeper block soaking up pressure. Hanley Town FC pulls toward aerial and ground duels won, reflecting a front-foot side that wins the ball in direct contests rather than through volume clearances. Interceptions are the one lane where Hanley Town FC leads cleanly, indicating sharper reading of passing lanes.

Goalkeeper

■ Hanley Town FC
 ■ Gornal Athletic FC

Goalkeeper — Comparison

◆ **Analyst Insight**

Hanley Town FC's keeper faced few clear sights of goal and conceded 3. Gornal Athletic FC's keeper was busier (4 saves) but a 36% save rate against 7 conceded reflects the volume and quality of chances faced rather than poor shot-stopping.
